I am a passionate and motivated Junior Front-End Developer with a solid foundation in HTML, CSS, and JavaScript. Recently transitioned into front-end development, I focus on building responsive, user-friendly websites and continuously expanding my technical skills. Eager to explore new technologies and contribute to innovative projects, I thrive in collaborative environments that prioritize creativity and growth.

Holding a long resident card in the Czech Republic, I am eligible to work without restrictions.

EDUCATION

42 Prague – Piscine (Intensive Bootcamp)- *February 2025*

- Problem solving and C programming skills
- UNIX/Linux systems and algorithms
- Peer-learning and project-based education
- Algorithmic challenges & coding exams

Special Techniques and Technology (B.A) - *Sept 2013 - June 2017*
Azerbaijan Technical University- Baku

WORK EXPERIENCE

Front-End Developer Intern - *Oct 2024 – Dec 2024*
MyMentor Internship and Development Agency – Baku, remote

- Converted Figma UI designs into pixel-perfect, responsive web pages using HTML, Tailwind CSS, JavaScript, and React.js, ensuring cross-browser compatibility
- Developed and maintained React.js components for a dynamic e-commerce web application, improving user experience and adding interactive functionality
- Collaborated with back-end developers to implement RESTful APIs, ensuring seamless data flow between the front-end and back-end systems
- Debugged and resolved front-end issues using **React DevTools** , improving system stability and reducing UI glitches.
- Utilized **Git** and GitHub for version control, contributing to efficient team workflows.
